FINANCIALS

Fast, Flexible Financial and Business Reporting Inside of Excel, for Microsoft Dynamics 365 Business Central.

Jet Reports Financials

Jet Reports Financials from Jet Reports delivers a fast, flexible reporting solution built for Microsoft Dynamics 365 Business Central that gives you a simple and easy way to create and run financial reports directly inside of Excel. Drag and drop any combination of your chart of accounts, dimensions, and companies to instantly see your account balances and create financial statements in the format you need.

Accurate Answers

Generate timely, accurate financial statements, in the format that works for you, using the same fields and calculations you're already familiar with inside of Excel. Then, drilldown to see the underlying data behind the numbers to have the answers you need on-demand.

Flexible Format

Absolute integration with Dynamics 365 Business Central allows you to include any combination of companies, dimensions and accounts in your financial reports. Build your own consolidations in minutes, get visibility across departments, and create any grouping of accounts in the format you want.

Increased Efficiency

Eliminate the time consuming and error-prone task of copying, pasting, and manually exporting to compile financial reports for meetings and year-end close. Improve effectiveness and productivity by streamlining and automating your reporting in Excel.

Instant Success

Download in minutes and begin to run financial reports immediately with pre-built, adaptable Dynamics 365 Business Central financial report templates in key areas such as account status, profit and loss, budget to actuals, and more.

Gain complete financial visibility on your business when you bring Excel and data together with Jet Reports Financials and Microsoft Dynamics 365 Business Central.

Jet Reports Financials streamlines all of your financial reporting from Dynamics 365:

DEVELOP

- Custom reports
- Inside of Excel
- Multiple companies
- Unlimited departments

RUN

- One-click refresh
- Change filters
- Real-time answers

VERIFY

- Drilldown
- Transaction level detail

MANAGE

- Create once, run forever
- Fast variations
- Consolidations

TEMPLATES

- Executive Overview
- Account Comparisons
- Expense by Dimension

Improve Reporting Time

Jet Reports Financials makes it fast and easy to create your own reports in minutes, with only the accounts you want to see, in the way you want to see them. Why waste time manually exporting financial data to Excel and massaging the layout each time when you can start there in the first place? Create a report once, and run it forever. Automate reporting and minimize the time it takes to get accurate financial information in the format you need.

Boost Visibility

See any combination of accounts, number of dimensions or departments, and consolidation of companies from Dynamics 365 Business Central in a single financial report for analysis. Need to understand the underlying details behind any number? Drilldown to have the answers you need instantly.

Reduce Financial Risk

With streamlined financial reporting in an adaptable format, you're able to provide reports, statements, and financial standings to investors, banks, and boards on a moment's notice. And with a complete audit trail through Dynamics 365 Business Central transactions and postings, you can rest easy knowing the figures are right and instantly verifiable.
